PROFESSIONAL SUMMARY

Detail-oriented Quality Assurance professional with hands-on experience in manual testing, test planning, and bug tracking. Skilled in designing comprehensive test case matrices, conducting UAT scenarios, and executing regression, functional, and cross-browser testing for web and mobile interfaces. Adept at identifying defects, logging detailed bug reports in Jira, and collaborating with developers to streamline release lifecycles.

TECHNICAL SKILLS & EXPERTISE

Testing Methodologies:	Manual Testing, API Sanity Checks, Functional Testing, Regression Validation, Smoke Testing, Cross-Browser Testing, User Acceptance Testing (UAT), Test Case Design, Bug Lifecycle.
QA Tools & Platforms:	Postman, Jira, BrowserStack, Katalon Studio, JMeter, Sentry, Git, GitHub, Bitbucket, Trello, ClickUp.

WORK EXPERIENCE

QA Tester Rayo Innovations	Jan 2023 - Present
- Execute rigorous manual tests for cross-browser web interfaces, maintaining layouts and cross-device consistency. - Perform REST API sanity checks via Postman prior to frontend integrations to verify payloads. - Identify, document, and track high-severity regressions, functionality bugs, and UI anomalies in Jira. - Collaborate with engineering teams to conduct smoke testing and sign off on hotfix releases.	
Junior QA Analyst Polyxer Systems Pvt Ltd	Dec 2024 - June 2025
- Developed end-to-end user acceptance testing (UAT) matrices covering major business workflows. - Coordinated with product teams to define release criteria, reducing post-release defect density. - Conducted smoke testing cycles for fast-paced hotfix patches to guarantee runtime stability.	

KEY PROJECT SHOWCASES & DEPLOYMENTS

Captain Up:	Gamification & customer loyalty platform. Validated challenge flows, rewards structures, leaderboards, and cross-browser functionality; managed bug lifecycle in Jira.
Challenge Entertainment:	Mobile trivia app. Audited trivia leaderboard sync, schedule database query triggers, and event notification triggers.
Selloctave:	Cloud in-store music scheduler. Tested retail audio configurations, timezone announcement schedules, volume fade rules, and continuous offline playback.
Client Notes:	AI stylist CRM. Audited AI voice note storage, appointment booking calendars, and automated SMS appointment follow-ups.
Other Projects:	Additional projects including <i>DateCheck</i> (AI safety tool) and <i>AutoAviso</i> (automotive marketplace) are active on my live portfolio site.

EDUCATION

Master of Computer Application (MCA)	GLS University, Ahmedabad, India	2022 - 2024
Bachelor of Computer Application (BCA)	SomLalit Institute (Gujarat University), Ahmedabad, India	2019 - 2022
